Our **RATINGS** are a guide to help you choose your walks

C+: Suitable for anyone reasonably fit...

B: A bit energetic, crossing mainly defined paths...

B+: More energetic and more ups and downs...

A: Strenuous for experienced walkers or anyone in a good fit condition. Can involve challenging ascents/descents and hard walking terrain.

(All our walking trips, DO NOT involve wall / rock climbing)

Always wear **SUITABLE AND CONFORTABLE FOOTWEAR**. Whether you choose boots, shoes or sandals, they must be up to the task! For the **medium to difficult** excursions **boots** (for ankle support) or **hiking shoes** are **recommended**. Good walking footwear with a hard sole, plenty of grip and worn with thick mountain socks makes all the difference and is normally better than trainers.
